

COVID-19 Emergency Support Framework

Engagement and support call Summary Record

Althea Healthcare Properties Limited

Location / Core Service address	Date
The Queen Charlotte 432 Chickerell Road Chickerell, Weymouth DT3 4DQ	10/07/2020

Dear Althea Healthcare Properties Limited

The Care Quality Commission is not routinely inspecting services during the COVID-19 pandemic. We are maintaining contact with providers through existing monitoring arrangements and engagement and support calls covering four assessment areas:

- Safe Care and Treatment
- Staffing arrangements
- Protection from Abuse
- Assurance Processes, Monitoring and Risk Management

This Summary Record outlines what we found during the engagement and support call shown above, using standard sentences and an overall summary.

We have assessed that you are managing the impact of the COVID-19 pandemic at the above service. The overall summary includes information about the internal and external stresses you are currently experiencing, how they are being managed, and sources of support that are available.

Emergency Support Framework calls and other monitoring activity are not inspections. Summary Records are not inspection reports. Summary Records are not published on our website.

Assessment Area 1

Safe care and treatment

1.1 Are infection risks to people using the service being thoroughly assessed and managed?

Yes Infection risks to people using the service are being thoroughly assessed and managed.

1.2 Does the service have the resources to obtain, and reliable access to, all the supplies, personal protective equipment and C-19 testing it needs, for both staff and people who use the service?

Yes The service has reliable access to the right personal protective equipment and C-19 testing for both staff and people who use the service.

1.3 Does the location's environment and layout support preventing and containing transmission of infection?

Yes The location's environment supports the preventing and containing the transmission of infection.

1.4 Are working arrangements and procedures clear and accessible to staff, people who use the service, their supporters, and visitors to the service?

Yes Working arrangements and procedures are clear and accessible to staff, people who use the service, their supporters, and visitors to the service.

1.5 Are medicines being managed safely and effectively?

Yes Medicines are being managed safely and effectively.

1.6 Are risks to the health of people using the service being properly assessed, monitored and managed?

Yes Risks to the health of people using the service are being properly assessed, monitored and managed.

Assessment Area 2

Staffing arrangements

2.1 Are there sufficient numbers of suitable staff to provide safe care and treatment in a dignified and respectful way?

Yes There were enough suitable staff to provide people with safe care in a respectful and dignified way.

2.2 Are there realistic and workable plans for managing staffing levels if the pandemic or other causes lead to shortfalls and emergencies?

Yes There were realistic and workable plans for managing any staffing shortfalls and emergencies.

Assessment Area 3

Protection from abuse

3.1 Are people using the service being protected from abuse, neglect, discrimination and loss of their human rights?

Yes People were being protected from abuse, neglect, discrimination, and loss of their human rights.

3.2 Are the service's safeguarding and other policies and practice, together with local systems, properly managing any concerns about abuse and protecting people's human rights?

Yes Safeguarding and other policies and practice, together with local systems, are properly managing any concerns about abuse and protecting people's human rights.

Assessment Area 4

Assurance processes, monitoring and risk management

4.1 Is the provider monitoring and protecting the health, safety and wellbeing of staff?

Yes The provider is monitoring and protecting the health, safety and wellbeing of staff.

4.2 Does the provider have effective systems and methods for monitoring the overall quality of the service and for responding to business risks and issues as they arise?

Yes The provider's systems and methods for monitoring the overall quality of the service and for responding to business risks and issues as they arise are effective.

4.3 Is the provider supporting staff and people who use the service to raise any concerns and give feedback?

Yes Staff are supported to raise concerns and give feedback about the service.

4.4 Is care and treatment provided to people being properly recorded?

Yes Care and treatment provided to people is being properly recorded.

4.5 Is the provider able to work effectively with system partners when care and treatment is being commissioned, shared or transferred?

Yes The provider is able to work effectively with system partners when care and treatment is being commissioned, shared or transferred.

Overall summary

From our discussion and other information about this location, we assess that you are managing the impact of the COVID-19 pandemic.
You have had the whole home tests results and everyone is negative.
Infection control products and practice: There is sufficient PPE and arrangements are in place for cleaning the home.

Environment: Arrangements are in place so people have been able to be isolated on admission to the home. Visitors are able to spend time with their loved ones in the garden with safety measures in place.

Staff cover and support: There are staffing contingency plans in place. Staff have had access to support systems from the management team and provider. You have measures in place to ensure staff know they are appreciated. Safeguarding and concerns and improving and delivering care: You have daily contact with people and no complaints have been raised by them or their families. Safeguarding allegations have been reported, investigated and managed. Management of the service: Staff are feeling supported and working effectively following a change in the home's management. All systems are working well including internal reporting, auditing and liaison with external agencies and health care professionals. Initial assessment information that has accompanied people discharged from hospital has not always been accurate. You described how you mitigated the risks associated with this.
